This year's edition of Polish Arts festival is themed **"Together as One - Razem jako Jedno"**

In these challenging, surreal times, when people miss each other, when social distancing makes it nearly impossible to gather and celebrate we look at the bright side of life and show that **Together** we can do much more regardless of the nationality, social & cultural background, beliefs or disbeliefs.

We explore the meaning of the word **"Together"** and offer a series of events that hopefully can bring some consolation and hope in life surrounded by fear and uncertainty.

Join us this year, maybe for the first time, and see that **Together we are One.**
